The sensor is functional again after the overload has been eliminated.  
Not for flush mounting: See installation instructions for inductive sensors with extended range 939229.  
For more information about MTTF and B10d see MTTF / B10d Certificate

Indication of the MTTF- / B10d value does not represent a binding composition and/or life expectancy assurance; these are simply experiential values with no warranty implications. These declared values also do not extend the expiration period for defect claims or affect it in any way.
