Specifications

Model		VH-V200
Magnification		200×*1
Field-of-view	Horizontal	1.53 mm0.06"
	Vertical	1.14 mm0.04"
	Diagonal	1.9 mm 0.074"
Depth-of-field		0.4 mm0.016"
Working distance		—
Non-contact type observation distance		—*2
Note		This product can eliminate glare (reflection) from lustrous surfaces, which makes it possible to observe surfaces in detail. In turn, this makes it possible to easily check for scratches, dirt, and cracks in materials such as metal, glass, and ceramic, which was difficult to do with microscopes.

*1 Magnification on a 15" monitor.

*2 The numbers in the parentheses are for when the non-reflective illumination head has been attached.
